Hydestor Static Frame Single & Double Sided

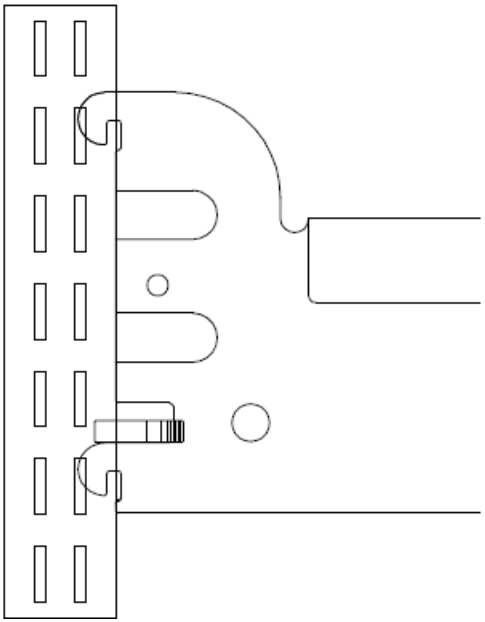

Assembly Instructions

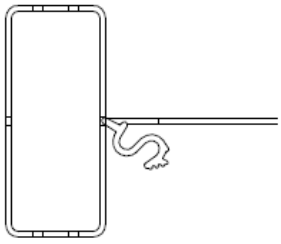

WA Library SUPPLIES

www.walib.com.au

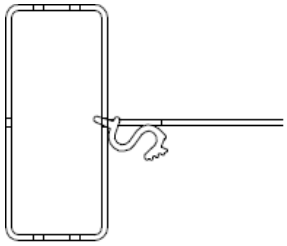

For assembly of both single and double sided static frames up to 1575mm post height.

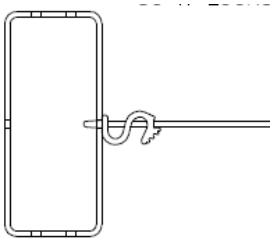

Insert back brace locking clip through cutout in back brace into the slot of the post

Continue pushing and rotating back brace locking clip through cutout in back brace into the slot of the post

Push all the way into slot and clip through the cutout in back brace so it locks into place.
